

Green Light Project - 2024

The Green Light Project is a coordinated nationwide effort to illuminate buildings, spaces, monuments and bridges in green (the official color of Youth HOPE Month) as symbols of support and beacons of hope. The illuminations offer excellent visuals that can be shared on social media.

We encourage you to secure buildings and bridges in your community to be lit green in November. While there are usually no fees associated with turning a public building a specific color for a designated period of time, these requests often need to be made several months in advance.

Check below for lighting opportunities in your area and research additional buildings and spaces that may be willing to #GoGreen during #YouthHOPEmonth. Identify the contact person who handles the lighting program and submit your request (some buildings accept requests via a form on their website).

Active links, emails and phone numbers are highlighted! Other available opportunities without contact information are also available. More opportunities may be added, so check back weekly!

Know other opportunities? Apply or submit your request, then let us know at csmith@1800RUNAWAY.org

Alabama

- Huntsville, AL: The Wine Cellar – Phone: 256-489-8463
- Mobile, AL: The Retirement Systems of Alabama (RSA) Building – [Building Lights Request](#)
